New Agent Training Guide

Mindset + practical steps for new agents - sample document, no real company or customer data.

Topic	Key idea
Patient mindset	Customers do not know what you know. Explain step by step.
Listen first	Let them finish. Do not interrupt or assume.
Angry customers	Do not react, find the real reason. Ask gently.
Hard cases teach most	Upset customers show where the real problems are.
First contact fix	Think ahead, solve in one reply when possible.
Use the SOP	Follow approved steps, ask the leader if unsure.

Good agents learn from guidance and then apply it independently.
